

BLADE AND BIT SELECTION CHART

APPLICATIONS

LASER PRO
(Wet Cutting) A range of laser welded diamond tools designed for the professional contractor where tool performance in extremely demanding applications is required. Tool performance rather than tool costs is a critical factor.
(Dry Cutting) A premium range of laser welded dry cutting blades that will meet the demands of the toughest applications.
ENDURO WHITE
(Wet and Dry Cutting) An extremely versatile range of high performance diamond tools that offer excellent performance at competitive pricing for medium to large projects.
ENDURO BLACK
(Wet and Dry Cutting) Diamond tools designed for small to medium sized projects where tool price is an important factor
ENDURO RED
(Wet and Dry Cutting) Diamond tools for small to medium sized projects where tool price is an important factor. Designed for cutting of extremely abrasive products.
ENDURO ORANGE
(Dry Cutting) The most economically priced diamond tools designed for small projects.
ENDURO GREEN
(Dry Cutting) The most economically priced diamond tools for small projects. Designed for cutting of extremely abrasive products.
ENDURO PURPLE
(Dry Cutting) A range of segmented, turbo and continuous rim blades ideally suited for the retail market.
