## SUPRASHINE PADS

# COMPLETE FLOOR RESTORATION & MAINTENANCE CYCLE.

Suprashine offers the most complete and effective range of pads for all your floor restoration and maintenance needs.

Suprashine is offered in several variants and grit sizes for different applications and floor types, from restoration and deep cleaning to gloss upgrades and daily maintenance. Suprashine pads are available in sizes ranging from 230mm to 900mm and are compatible with low-speed and high-speed floor scrubbers.

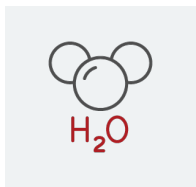

Suprashine offers exceptional results as the diamond impregnated pads mechanically clean and re-polish the floor with every pass.

## HARD & RESILIENT FLOORS

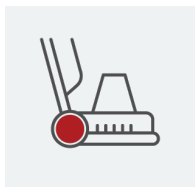

# COATED AND UNCOATED

CHEMICALS**

**EASY  
TO USE**

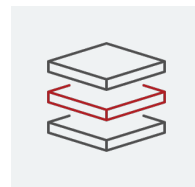

**SIMPLE  
PROCESS**

**ECO-  
FRIENDLY**

**RESTORE &  
MAINTAIN**

**ALL HARD  
SURFACES**

## HOW SUPRASHINE PADS WORK

# FIND YOUR SOLUTION. HIGH-GLOSS WITH EVERY CLEAN.

Suprashine Pads make floors both cleaner and increase the overall gloss levels by making use of billions of microscopic diamonds impregnated in the pads. The difference between the pads is the size of the diamonds, or the “grit” levels. Suprashine grit levels range from #400 (very coarse) to #8000 (very fine).

The wide range of grit levels will allow you to upgrade your floors, depending on what level of restoration or maintenance is required. The Suprashine pads will increase the life of a floor finish by up to 100%. Not only will cleaning costs be reduced, Suprashine will also remove up to 80% more bacteria than conventional cleaning methods.

### Simple implementation. No change in machines or procedures.

• NO CHEMICALS. Only water.

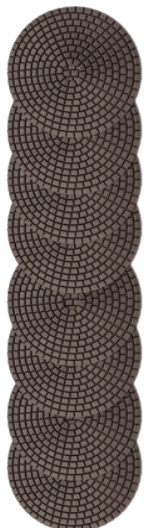

NAME	COLOUR	DIAMETER	DESCRIPTION
SUPRASHINE #400	RED	230-900mm	FOR HEAVY DUTY CLEANING OF WORN STONE CONCRETE & EPOXY FLOORS. EFFECTIVELY REMOVES SCRATCHES & STAINS LEAVING A CLEAN MATT SURFACE.
SUPRASHINE #800	WHITE	230-900mm	WILL REMOVE TINY SCRATCHES FROM THE SURFACE AND LEAVES A SILKY MATT CLEAN SURFACE WHEN COMPLETE.
